Metro bus replacement

Towards Heworth and South Gosforth

Occasionally there are unexpected delays to the Metro service and in these instances a bus replacement service is sometimes used. Passengers are advised that there may be a delay in providing the bus replacement service. However, every effort will be made to keep delays to a minimum. Metro apologise for any inconvenience this may cause.

During planned modernisation work a bus replacement service will sometimes be required, planned service changes will be shown on station engineering posters and passenger information display boards.

Bus replacement service stops are usually at or close to Metro stations and are shown on the map.

For more information use the station Help Point or contact a member of staff.
