## Climb the Rock of Dunamase

Located 10 minutes from the hotel. The rock, 46 metres above a flat plain, has the ruins of Dunamase, a defensive stronghold dating back from the early Hiberno-Norman period with views across the Slieve Bloom Mountains. Only a few arches remain of the original structure, as the castle was all but destroyed some 200 years after it was built in the 12th century. Even so, the castle foundations are clear enough to imagine what this sight may have looked like in its day. It is near the N80 road between Portlaoise and Stradbally.
